

SDG'S indicators to be checked if they interlink with the method	YES	NO
SDG 1 Target 1.5 "By 2030 build resilience of the poor and those in vulnerable situations and reduce their exposure and vulnerability to climate-related extreme events and other economic, social and environmental shocks and disasters" → Did the method while being implemented gave capacity to the volunteers in encouraging them to play role in climate action and climate justice movements? Did they realize, that "global south countries" are the ones, suffering the most from climate change?		
SDG 13 Target 13.3 "Improve education, awareness-raising and human and institutional capacity on climate change mitigation, adaptation, impact reduction and early warning" → did the volunteers learn about global climate justice movements and did they realize, that the people in the affected countries raise their voice and fight against climate change? Was there a differentiated image submitted, which breaks with stereotypical representation of the ones suffering the most from climate change?		
SDG 6 Target 6.b "Support and strengthen the participation of local communities in improving water and sanitation management" → Is it realized by volunteers during the stationary method, that climate change, especially coal mining is affecting the quality of drinking water and are the volunteers motivated to do advocacy work and climate action to address the disaster caused by mining companies?		
SDG 8 Target 8.9 "By 2030, devise and implement policies to promote sustainable tourism that creates jobs, and promote local culture and products" → During the method did the volunteers get motivation to make their stay abroad during their participation in the weltwärts program be more sustainable and realized the need of respecting local culture and promote local products in the communities they will be staying during their stay? Did they reflect about the possibilities to support climate justice movements during their voluntary stay?		
SDG 11 Target 11a "Support positive economic, social and environmental links between urban, peri-urban and rural areas by strengthening national and regional development planning" → Do the volunteers get to know alternatives to neoliberal economy, which is pushing climate change? Do they realize, that in the so called countries in the "Global South", the people are realizing great projects to find alternatives to the unfair global economic system?		
SDG 13 Target 13 b "Promote mechanisms for raising capacity for effective climate change-related planning and management in least developed countries and small island developing States, including focusing on women, youth and local and marginalized communities" → did the volunteers learn about strategies fighting climate change? Did they reflect about the role of the weltwärts program supporting climate justice movements?		

<p>SDG 15 Target 15.5</p> <p>“Take urgent and significant action to reduce the degradation of natural habitats, halt the loss of biodiversity and, by 2020, protect and prevent the extinction of threatened species”</p> <p>→ does the volunteers learn, that it is important to be active and support activists, which fights against the destroying of the environment, important species and plants?</p>
